

## ARE ON THE MEND

Trade and Finance Shows Healthy Symptoms.

## CONFIDENCE IS RETURNING

Dun & Co.'s Weekly Review of Trade Gives a Conservative Statement of Our Losses and Gains.

New York, July 28.—R. G. Dun & Co.'s weekly review of trade says: This hard week has left the business world still able to rejoice in the soundness and strength disclosed. Prices of stocks were greatly depressed Tuesday and Wednesday, closing lower than any other day since January, 1873, and the fall on Wednesday averaged over \$2 per share, and yet only two failures resulted and those of brokers not especially important. A sharp rally followed on Thursday, with buying from London by shorts and especially significant buying by small investors. No banks here or at other eastern cities, and no eastern firms of large importance have gone down, but numerous banks failed at the west, including some of high repute and large business. The railroad was again placed in the hands of a receiver, though for eight months of the fiscal year not earnings of the company had been larger than last year's and earnings of other road reporting are generally to last year's. The money market became extremely stringent again with the depression in stocks and the drain to assume other cities has been very heavy, but through all the strain the banks of New York have passed without trouble and imports of gold have commenced.

## Money Sent West.

From \$1,000,000 to \$2,000,000 in money has been sent west every day, and a large decrease in bank reserves is expected as the treasury has not been decreasing heavily. Few commercial loans have been negotiated and at high rates. At earlier dates the money markets have been quite close, but bank failures at Milwaukee, Indianapolis and Louisville have caused less disturbance than might have been feared. The treasury purchases silver sparingly and the exports of that metal have been large. Exchanges between this city and Philadelphia has been especially disturbed, but banks of the latter city continue to supply customers as well as they can. Chicago has drawn heavily on New York, but in that and other cities bank statements indicate creditable soundness.

## In the Markets.

Cotton has declined an eighth, though exports are a little larger and exports smaller than last year, but holders show great stubbornness in view of the large stocks in sight and the closing of many mills. In other products no special change is reported, though prices tend lower. Many woolen factories are closing for a month or more and indefinitely, because orders are slack, for while soldiers' orders are about as usual, civilians still hold off. Fall trade is said to be more or less off, a third of the usual size and many dealers expect to do no more than half the usual spring business. Dress goods are better in tone, but an unusually large proportion of sample works are closed. Fall cottons, though half a cent lower than last year in price, are exceptionally attractive, meet but moderate demand, and print cloths are weaker at 23¢ cents.

## Knit Goods Business Better.

The knit goods business is somewhat better. Sheep wool at the chief markets last week was \$2,164,000 pounds against \$1,570,000 last year and for three and a half months \$17,746,567 against \$15,000,000 last year. Orders for boots and shoes are restricted, many shops running short time, while others have closed and shipments from the east are 22 per cent less than for the same week last year. The iron business grows less active and in spite of past decrease in output the demand does not equal the supply, so that four large furnaces at Pittsburgh are expected to close. Bar is weak and has been sold at \$1.50. Plates are in a narrow limit and structural iron is irregular with beams down to \$1.80. Of steel bars, 28,000 tons were sold to agricultural implement makers at Chicago. At Milwaukee the failure of the three oldest banks caused intense excitement and heavy commercial failures, large holdings of iron syndicate paper being the cause and business is contracting.

## The Failures.

Failures during the past week number 286 in the United States, against 171 last year, and 23 in Canada against 22 last year. It is noteworthy that only three failures were of capital above \$100,000 each and only 39 of capital over \$20,000 each. Over fifty banks stopped during the week, but nearly all were at the west. Last week the failures in the United States numbered 457 and the previous week 54.

## ODDS AND ENDS.

Subs a croaking frog with a very soft lead pencil.

Wendy's father was a merchant of British monos.

Bring bells were invented by a Dutch minister in 1809.

Bands one used of guilt, how blest is glorious wool—Indians.

Clouds have been killed in Peru with wings of 40 feet spread.

Daniel Lambert, the fattest man ever known, weighed 500 pounds.

Clean plaster of paris ornaments with wet starch brush off when dry.

Avoid consonants and redounds of speech and language and harsh laughter.

Sarcasm distinctions never amount to anything, although they cost a great deal.

The rifle was invented by Whitewell in 1842, the repeating rifle by Sharpless.

Sixty counties in Missouri are named in honor of presidents of the United States.

There are six women factory inspectors in New York whose pay averages \$800 a week.

The total number of colored troops in the United States army during the civil war was 180,000.

A single "25 foot long and a foot in diameter" board is to be beneficiary people near Manchester, O.

The "Boys in Blue," a military organization in Kansas, admits to members wives, daughters and sons of veterans.

Nervous headaches promptly cured by Brown-Selzer. Trial bottle 10 cents.

## READY FOR CHOLERA

Clear Up the Rubbish Before Disease Appears.

Experience of a Physician With a Dyspepsia Patient.

All Danger Over in Less Than Ten Days—A Simple Treatment.

"Clear up the rubbish from back yards and sweater collars with broom, scrubbing brushes and disinfectant. Now's the time to get ready for cholera," says The Boston Globe.

Clean streets and alleys diminish the chances of epidemic but it is of more vital importance that the natural gates and alleys of the body be swept and clean.

The only way to secure this healthy condition of the blood vessels is through the nerves. Blushing and sudden pallor show how absolutely the nerves regulate the blood.

King Richard's cry, "My kingdom for a horse!" arouses little enthusiasm in these days when not a horse, but a Safety, is one desire of all, both young and old. It's right it should be so.

What's more healthful or more delightful than a spin over a smooth road?

The cool air fans one's cheek as with shout and laughter we skim along.

Distance counts for nothing. Two, four, six miles we easily cover before breakfast, and with renewed health and vigorous appetites we begin a day of work or pleasure with cheerful thoughts and a clear brain because of an hour's use of our Safety.

Secures the selection of any Summer Suit in our Clothing House. This offer includes all the Suits sold heretofore at \$22, \$20, \$18 and \$15, and ends Saturday night.

Every style, size, shade, pattern and fabric known to the trade is included in the sale.

Gentlemen seeking a stylish Suit for summer wear at a saving of nearly 1/2 from regular price should not fail to take advantage of this opportunity.

Convenient and secure the best selection. Choice of all—any Suit—only \$10.00.

THE DR. SANDE'S ELECTRIC BELT

is a complete apparatus made of leather to be easily worn during work or sleep, and in every clothing, pocket or purse which are necessary throughout all week parts, or weekend.

It is a leather belt with a small electric motor attached to the belt, which runs on a small battery, and which gives a continuous current of electricity to the skin, which is the best way to keep the body in a healthy condition.

It is a leather belt with a small electric motor attached to the belt, which runs on a small battery, and which gives a continuous current of electricity to the skin, which is the best way to keep the body in a healthy condition.
